Simple pleasures

If the clouds of the Maldives make themselves an offering a while, feel back today. Baros Maldives was the very better. Welcome to enjoying well.

Simple pleasures

Part of enjoying life simply is the removal of all the stress of the everyday world and, from that perspective, Baros sits as a resort wherever else.

The whole ethos of the place revolves around getting back to basics, to essentials and the simple things in life. There is, for example, a nearby island road that serves as a proof and the resort has an acknowledged commitment to the environment. The very substance of the buildings is derived from nature. Using sustainable tropical wood and cement to its best advantage, local architect, Mohamed Shafeeq has created an elegant and airy environment that accentuates the 'bringing the indoors outside' feel of the resort.

Apart from the materials used, the resort, which is a member of the Small Luxury Hotels of the World group, is about being outdoors and at one with nature. Baros Maldives' Welcome

Facilities, the restaurants and bars are all in the open air. Some of the villas have included outdoor bathrooms and even those with more conventional bathing facilities have outdoor showers. If you can resist the local tropical heat after dark, you could even dress out of doors, as there's a heated hot tub nearby.

Waking moments

If you can resist yourself from the beaches that stretch from so much pampering and relaxation, Baros' coffee machines give you just the shot in the arm you need to wake you up to the facilities. Perhaps the on-call butler can offer you breakfast on the beach or arrange an in-room massage to suit you. The days walk to the spa, however, those who do venture out to the beach will find a variety of calm with enclosed garden areas and private treatment areas.

Perhaps after one of the most relaxing treatments, guests may feel up to a short excursion. The private

You'll be able to take your catch home, but you'll need to be ready to go. If you're not, you'll need to be ready to go. If you're not, you'll need to be ready to go.
